

# Gastein

## „Hoch hinaus“

Off to the top of the mountains: Discover up to five 2,000-meter peaks on three stages of the long-distance hiking trail "Gastein Trail". With the cable car you can comfortably overcome the first meters of altitude, in order to be able to explore the higher landscapes with enough energy afterwards. The modern Hofgasteiner Haus offers a special overnight accommodation directly on the mountain during the first night. On the different stages you will discover rugged rocky landscapes, traces of gold mining, one of the highest suspension bridges in Europe and the Hohe Tauern National Park.
